

Sample Rating Scale - Scanning for a low-resolution project

Level 1

Assignment is incomplete or done incorrectly.

Level 2

A document has been scanned, and the resulting image can be viewed at an appropriate size in an application without additional sizing the image up or down. Although it is adequate, there is some room for improvement in the cropping or the positioning of the image.

Level 3

A document has been scanned, and the resulting image is clear, properly positioned, cropped appropriately, and can be viewed at an appropriate size in an application without additional sizing of the image up or down.
