

Reflecting Questionnaire

Directions

Read the questions. Add any additional questions you wish. Reflect on your experiences. Perhaps read sections of your Theatre Log to bring back experiences. Consider each question.

1. How have past experiences enabled you to handle situations which arose on this job?
2. How will your experiences in this job help prepare you for future situations?
3. What was the most memorable thing that you did?
4. How did it feel to be a part of a team?
5. Were you always on time and doing your best?
6. What role did communication play in your placement?
7. What do you know now that you did not before?
8. When you think of the one thing you liked best, reflect on the circumstances of the situation. Why does that experience rank so high? What does that one thing say about you or the experience?
